

Fantastic Fourth Grade!

with Ms. Issen and Ms. Mensah

Math Fun!

The past week we have spent time getting familiar with daily expectations for class. We are flying through our multiplication reviews and getting ready to dive into our math textbook next week. Your child will come home every week with a bonus Math Practice Packet that will be reviewed each Friday. The packets are 3 bonus Dojo points a page.

In ELA this week we:

- Practiced writing descriptive paragraphs including sensory words
- Reviewed story structure (plot, setting, and characters) during shared reading
- Studied our long 'a' and short 'a' spelling words
- Finished choosing our first set of independent reading books (Bag of Books)

Social Studies and Science

This week in Social Studies we were introduced to our first unit about the 5 Themes of Geography!

Science this week has been all about energy and its relationship with speed.

Other Reminders:

Wednesday Sept. 21st half day and Open House 3:00-7:00

NWEA Testing for 4th graders will take place on 9/22,9/23,9/26

Planners should be viewed and signed by a parent/guardian every night! Students can earn Dojo points for this!

Students should be recording their reading every night on their reading log. The reading log must be signed by parent in order for students to receive homework credit!

On Wednesdays the reading log should be brought to school so Ms. Mensah can check it
